

licensed vet tech

Spokane Humane Society is searching for additions to the veterinary medical team!

We are looking for a licensed veterinary technician (LVT). We have a high standard of care at our agency and have a save rate of 97% at our shelter. We have expanded our services to qualified low-income community members on Fridays for wellness services and are now open five days per week. Primary duties would include and not limited to:

- Induction and anesthetic monitoring of surgical patients
- Animal care, training & mentorship of veterinary assistants
- Monitoring surgical patients in recovery
- Medicating hospital patients
- Facilitating technician appointments for staff/foster/public patients
- Client communications for post-operative discharges.

Knowledge and experience in shelter medicine appreciated, but not required. We are looking for a team-oriented individual with dedication to our servant leadership to provide wellness services to those of lower socioeconomic status, combat pet overpopulation, infectious disease, and facilitate treatment of shelter patients.

Salary and benefits information available to serious inquiries.
