[juliasjungle@hotmail.com](mailto:juliasjungle@hotmail.com)  
(509) 922-6197

**spokane humane society**

## how to rehome your pet

### 1. try to find their perfect match

- promote your pet
- write their story
- share on social media
- share with friends/family
- share with rescue groups

### 2. conduct a telephone interview

- why are you interested in my pet?
- where will my pet stay?
- where will he/she sleep?
- do you have other pets?
- have you ever had a pet?, etc.

### 3. Choose the right home

- arrange a meeting
- get references
- charge a fee - this can provide safety for pets against malicious intent
- ask to follow up regularly for a specific amount of time

## do not abandon your pet

please do not abandon your pet, whether in a neighborhood, wooded area or park. If left alone, your pet may starve to death, encounter dangerous predators or get hit by a vehicle.

Furthermore, it can affect their ability to trust humans for the rest of their lives if left abandoned. If SHS is at capacity, there are always other options that are beneficial for both you and your pet.
